

Features & Benefits

FEATURES	BENEFITS	EXAMPLES
<p>Four distinct panels allowing for four different messages</p>	<p>Because there is a clear geometric separation of panels, you can use each as a billboard to communicate with your consumers, even after the purchase!</p>	<p>QR codes to communicate special deals/sales/events. These can be updated regularly without the need for new purchases by consumers.</p> <p>Your logo to keep your brand in front of consumers' eyeballs.</p> <p>Opportunity to educate your consumer through providing instructions for specific home-improvement projects.</p>
<p>Customization of label</p>	<p>Our labels are high-quality digitally printed billboards 100% customizable by you!</p> <p>You are in control of the artwork while we are in control of the in-mold-label quality!</p>	
<p>Sustainable Alternative</p>	<p>Our Pails can be manufactured with up to 40% PCR content.</p> <p>73% more of our Square Pails fit into one Truckload as compared to the standard round bucket, lowering shipping cost and environmental impact!</p> <p>Ergonomic handles are made of PP making the entire package recyclable. It's a lightweighted alternative!</p> <p>Our square pail is 10% to 30% lighter than round alternatives</p>	<p>Life Cycle Analysis of a 5-gallon Square Pail with 25% PCR (based on 3M units):</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;"> <p>-41.12% 5,057,740 kg CO₂e</p> </div> <div style="text-align: center;"> <p>-46.07% 1,022,273 gal</p> </div> <div style="text-align: center;"> <p>-45.4% 465,610,253 gal</p> </div> </div> <p><small>*Using forecasted volumes of 3.3MM</small></p> <div style="display: flex; justify-content: space-around; align-items: center;"> </div>
